BRIEF COMPANY OVERVIEW

For more than 30 years, Myers and Stauffer LC has provided accounting and consulting services to governmental health care agencies. Services include: financial and performance audits, complementary audit services, recovery audits, accounting and complementary financial management services. Myers and Stauffer has more than 250 persons available across the firm with considerable academic training and specialized experience in health care consulting and reimbursement. Our experience includes handling more than 6,000 health care provider cost report audits and desk reviews each year, assisting in the development of state reimbursement systems, defending reimbursement rates and audit findings from health care providers' administrative and judicial challenges, and performing data management and analysis services to assist our clients in better managing their health care programs.

CONTRACT USE

This contract is available for use by all federal government agencies, as a source for Professional Services specifically, Financial and Business Solutions, for worldwide use. Executive agencies, other Federal agencies, mixed –ownership Government corporations, and the District of Columbia; government contractors authorized in writing by a Federal agency pursuant to 48 CFR 51.1; and other activities and organizations authorized by statute or regulation to use GSA as a source of supply may use this contract. Additionally, contractors are encouraged to accept orders received from activities within the Executive Branch of the Federal Government.

CONTRACT SCOPE

The contractor shall provide all resources including personnel, management, supplies, services, materials, equipment, facilities and transportation necessary to provide a wide range of professional services as specified in each task order.

Services specified in a task order may be performed at the contractor's facilities or the ordering agencies' facilities. The government will determine the contractor's compensation by any of several different methods (to be specified at the task order level) e.g., a firm-fixed price for services with or without incentives, labor hours or time-and-material.

The Special Item Numbers (SINs) available under this contract provide services across the full life cycle of a project. When task orders are placed, they must identify the SIN or SINs under which the task is being executed. Myers and Stauffer LC has been awarded a contract by GSA to provide services under the following SINs:

- SIN 520-7 Financial & Performance Audits
- SIN 520-8 Complementary Audit Services
- SIN 520-9 Recovery Audits
- SIN 520-11 Accounting
- SIN 520-13 Complementary Financial Management Services
- SIN 520-17 Risk Assessment and Mitigation Services

520-7RC, 520-8RC, 520-9RC, 520-11RC, 520-13RC, 520-17RC: Section 833 of the National Defense Authorization Act allows state and local governments to purchase products and services to facilitate recovery from a major disaster. This includes advance and pre-positioning in preparation for a disaster.

A full description of each SIN definition and examples of the types of work covered by the SIN are provided below.

SPECIAL ITEM NUMBER (SIN) DESCRIPTIONS

520-7 Financial & Performance Audits

Perform financial statement audits, financial-related audits, performance audits in accordance with Generally Accepted Government Auditing Standards (GAGAS) and non-GAGAS. An independent assessment of an audited entity's a) financial statements in conformity with generally accepted accounting principles, b) financial information, adherence to financial compliance requirements and internal controls, or c) organization or program performance to identify areas for improvement. Services may include but are not limited to the following:

- Financial statement audits
 - audit of financial statements prepared in conformity with standards of accounting issued by Statement of Federal Financial Accounting Standards (SFFAS) and by the American Institute of Certified Public Accountants (AICPA)
- Segments of financial statements
 - audit financial information, e.g. statement of revenue and expenses, statement of cash receipts and disbursements, statement of fixed assets, budget requests, and variances between estimated and actual financial performance
- Internal controls
 - audit for compliance with laws and regulations such as those governing the bidding for, accounting for, and reporting on grants and contracts including proposals, amounts billed, and amounts due on termination claims
 - audit financial reporting and/or safeguarding assets including controls using computer-based systems
- Government Contract Audit and Advisory Services:
 - Government contract audit and advisory services (audits/attestations or nonaudit services) to assist the contracting officers in the determination of fair and reasonable prices and/or compliance with contract terms, as delineated below.
 - Government contract audits and attestation engagements, such as examinations providing an opinion and agreed upon procedures, performed in accordance with Generally Accepted Government Auditing Standards (GAGAS). Contract audits and attestation engagements include, but are not limited to: examination of proposals, incurred costs, interim and final contract billings (including progress payments based on costs), contract audit closing statements (CACS), requests for equitable adjustments (including but not limited to delay claims), contract terminations, defective pricing reviews, compliance with Cost Accounting Standards (CAS), financial capability, earned value management (EVM) systems, accounting systems, estimating systems, purchasing systems and other internal controls within the contractor's operational environment.
 - Government contract nonaudit services, such as reviews and compilations (nonaudit services). Nonaudit services are not performed in accordance with Generally Accepted Government Auditing Standards (GAGAS). Guidance on nonaudit services is contained in the GAGAS

"Yellow Book". Nonaudit services include, but are not limited to, comparison of accounting practices used for proposals with those used for incurred costs (consistency in estimating/reporting of costs with the way in which they are recorded in the books and records), verification of direct/indirect costs and/or rates to books and records, verification of labor rate calculations, verification of proposed or claimed amounts to supporting data such as payroll records and other source documents. Nonaudit services also include, but are not limited to other reviews that are not performed in accordance with GAGAS in the areas of proposals, incurred costs, interim and final contract billings including progress payments based on costs), contract audit closing statements (CACS), requests for equitable adjustments (including but not limited to delay claims), contract terminations, defective pricing, compliance with Cost Accounting Standards (CAS), financial capability, earned value management (EVM) systems, accounting systems, estimating systems, purchasing systems and other internal controls within the contractor's operational environment.

- Economy and efficiency audits
 - assess business practices
 - evaluate acquisition of appropriate type, quality, and amount of resources at an appropriate cost
 - assess duplication of effort by employees and work that serves little or no purpose
 - evaluate the optimum amount of resources (staff, equipment, and facilities) in producing or delivering the appropriate quantity and quality of goods or services in a timely manner
 - evaluate compliance with requirements of laws and regulations that could significantly affect the acquisition, protection, and use of the entity's resources
 - assess management control systems for measuring, reporting, and monitoring a program's economy and efficiency
 - evaluate reported measures of economy and efficiency
- Program results and program fraud audits
 - assess whether the objectives of a new or ongoing program are proper, suitable, or relevant
 - determine the extent to which a program achieves a desired level of program results
 - assess the effectiveness of the program and/or individual program components
 - determine whether the program complements, duplicates, overlaps, or conflicts with other related programs
 - assess compliance with laws and regulations applicable to the program

MSLC's experience providing SIN-related services includes: performing Medicaid cost report audits/desk reviews, Medicaid rate calculations and/or cost settlements, and data management and reporting services for a state Medicaid program. This contract addresses hospitals, nursing facilities and other health care providers participating in this program. Our work involves cost report verification services, data management, and various Medicaid reimbursement issues. We annually perform Medicaid cost report audits/desk reviews of approximately 135 health care provider cost reports. This project requires an understanding of the entire Medicaid reimbursement system, including facility operations, health care reimbursement issues and Medicaid claims processing/provider payment systems.

SIN 520-8 – Complementary Audit Services

Other services performed by auditors including assist in developing questions for use at hearings, develop methods and approaches in evaluating a new or proposed program and forecast potential program outcomes.

MSLC's experience providing SIN-related services includes: preparation of reports, preparation of witnesses, deposition and final hearing testimony for and on behalf of state Medicaid programs. Our experience also includes assisting state Medicaid programs in designing new reimbursement rate structures for various provider types including developing potential impacts of proposed changes on existing rules and policies.

SIN 520-9 – Recovery Audits

Audits performed to recover funds resulting from overpayments, duplicate payments and underpayments. Performed under the authority of Section 354 of the National Defense Authorization Act for FY 96 (Public Law 104-106; 110 Stat. 268; 10 U.S.C. 2461), and Section 388 of the National Defense Authorization Act for FY 98. This may include but is not limited to the following:

- Identify overpayments
- Recover overpayments
- Identify and recover third-party liabilities
- Recover disability payments
- Recover health care costs

MSLC's experience providing SIN-related services includes: Engaged by state Health and Social Services to perform desk reviews and on-site field examinations of their Medicaid providers to validate proper reimbursement for a sample of Medicaid claims. Engaged by state Office of Medicaid Policy and Planning to identify and recover errant Medicaid payments, and assist in the development of Medicaid Management Information System (MMIS) changes or policy changes that will prevent future recurrences of the identified payment errors.

SIN 520-11 – Accounting

Transaction analysis, transaction processing, data analysis and summarization, technical assistance in devising new or revised accounting policies and procedures, classifying accounting transactions, special studies to improve accounting operations. This may include but is not limited to the following:

- Analyze, process, and summarize transactions
- Assist in devising new or revised accounting policies and procedures
- Classify accounting transactions
- Perform special studies to improve accounting operations
- Resolve accounting issues
- Resolve and/or implement audit findings
- Assess or enhance accounting internal controls
- Improve operating efficiency and effectiveness

MSLC's experience providing SIN-related services includes: Compiling financial and statistical data to provide cost profiles, limitation tables, and rate projections in order to evaluate potential rebasing and to establish per diem rates for nursing facilities, nursing facilities for mental health and intermediate care facilities for the mentally retarded for a state engagement.

SIN 520-13 – Complementary Financial Management Services

Assess and improve financial management systems, financial reporting and analysis, strategic financial planning, financial policy formulation and development. Devise and implement performance measures, conduct special cost studies, perform actuarial services, perform economic and regulatory analysis, assist with financial quality assurance efforts, perform benchmarking. This may include but is not limited to the following:

- Assess and improve financial management systems
- Conduct A-127 system compliance reviews
- Assist with implementation of corrective actions
- Document systems
- Identify systems requirements
- Plan and develop systems
- Assist in meeting agency financial management system requirements
- Assess and improve financial reporting and analysis
- Develop new reporting formats and pro-forma financial reports
- Assist in improving and streamlining reporting and analysis processes
- Perform cost-benefit or other special financial analyses
- Assist with the requirements of the Government Performance & Results Act
- Assist with devising and implementing performance measures and related processes and systems
- Assist with strategic and operational financial planning
- Resolve audit recommendations
- Assist in managerial cost accounting
- Assist in financial policy formulation and development

- Perform economic and regulatory analyses
 - develop methods for analyzing costs, benefits and impacts of regulations and policies
 - collect data and prepare Information Collection Requests for approval by OMB
 - conduct exposure and risk analyses
 - develop, modify or apply risk characterization models to analyze and evaluate policies, programs and regulations
- Perform actuarial services and/or actuarial data analysis services
 - collection, analysis, editing, calibration and data entry of Employee Benefit Plan information
 - conduct updates of a full actuarial valuation pension plan database, program major upgrades or significant new modeling capabilities
 - perform quantitative analysis of covered pension plans to identify plans that are potentially noncompliant or under-funded
- Assist with quality assurance efforts

MSLC's experience providing SIN-related services includes: Engaged by state Department of Health and Hospitals to assist in the development and maintenance operation of a case mix reimbursement system for nursing facilities participating in the state Medicaid Program.

SIN 520-17 – Risk Assessment and Mitigation Services

Risk Assessment and Mitigation Services include but are not limited to the following:

- Documentation of disclosure responsibilities for PII and PHI type information
- Deployment of risk assessment and mitigation strategies and techniques
- Improvement of capabilities through the reduction, identification, and mitigation of risks
- Detailed risk statements, risk explanations and mitigation recommendations
- Design and development of new business applications, processes, and procedures in response to risk assessments
- Ensuring compliance with governance and regulatory requirements
- Evaluation of threats and vulnerabilities to the protection PII and PHI type of information
- Training of government personnel on how to prevent data breaches and identity theft
- Information assurance of PII and PHI type information
- Vulnerability assessments
- Privacy impact and policy assessments
- Review and creation of privacy and safeguarding policies
- Prioritization of threats
- Maintenance and demonstration of compliance
- Evaluation and analysis of internal controls critical to the detection and elimination of weaknesses to the protection of PII and PHI type of information

MSLC's experience providing SIN-related services includes: Engaged by a state Public Pension Fund to complete multiple projects for identifying risks and regulatory compliance requirements in order to provide recommendations to mitigate risks for emerging technologies including disaster recovery, cloud computing, and mobile device security. Engaged by same agency to perform a network security and vulnerability assessment and recommend mitigating actions and priorities and to assess compliance of agency information security program with HIPAA.

Support Staff V	HS	6 months	Provides administrative support to professional staff. Responsibilities include typing, filing, report preparation, making travel arrangements and gathering information as required. Typically reports to a manager or director.

The Service Contract Act (SCA) is applicable to this contract and as it applies to the entire 00CORP Professional Services Schedule and all services provided. While no specific labor categories have been identified as being subject to SCA due to exemptions for professional employees (FAR 22.1101, 22.1102 and 29 CFR 541.300), this contract still maintains the provisions and protections for SCA eligible labor categories. If and/or when the Contractor adds SCA labor categories / employees to the contract through the modification process, the Contractor must inform the Contracting Officer and establish a SCA matrix identifying the GSA labor category titles, the occupational code, SCA labor category titles and applicable wage determination (WD) number. Failure to do so may result in cancellation of the contract.

INSTRUCTIONS FOR PLACING ORDERS FOR SERVICES BASED ON GSA SCHEDULE HOURLY RATES ([FAR 8.405-2](#))

GSA provides a streamlined, efficient process for ordering the services you need. GSA has already determined that Myers and Stauffer LC meets the technical requirements and that our prices offered are fair and reasonable. Agencies may use written orders; facsimile orders, credit card orders, blanket purchase agreement orders or individual purchase orders under this contract.

If it is determined that your agency needs an outside source to provide PSS / FABS services, follow these simple steps:

Orders under the Micro-Purchase Threshold (\$3,500)
<ul style="list-style-type: none"> Select the contractor best suited for your needs and place the order.
Orders in-between the Micro-Purchase Threshold (\$3,500) and the Simplified Acquisition Threshold (\$150,000)
<ul style="list-style-type: none"> Prepare a SOW or Performance Work Statement (PWS) in accordance with FAR 8.405-2(b). Prepare and send the RFQ (including SOW and evaluation criteria) to at least three GSA Schedule contractors. Evaluate, then make a "Best Value" determination. <p>Note: The ordering activity should request GSA Schedule contractors to submit firm-fixed prices to perform the services identified in the SOW.</p>
Orders over the Simplified Acquisition Threshold (\$150,000)
<ul style="list-style-type: none"> Prepare the RFQ (including the SOW and evaluation criteria) and post on eBuy to afford all Schedule contractors the opportunity to respond, or provide the RFQ to as many Schedule contractors as practicable, consistent with market research, to reasonably ensure that quotes are received from at least three contractors. Seek price reductions. Evaluate all responses and place the order, or establish the BPA with the GSA Schedule contractor that represents the best value (refer to FAR 8.405-2(d)). <p>Note: The ordering activity should request GSA Schedule contractors to submit firm-fixed prices to perform the services identified in the SOW.</p>

Developing a Statement of Work (SOW) or Performance Work Statement (PWS)	Preparing a Request for Quote (RFQ)
<p>In the SOW, include the following information:</p> <ul style="list-style-type: none"> Work to be performed, Location of work, Period of performance; Deliverable schedule, and Special standards and any special requirements, where applicable 	<ul style="list-style-type: none"> Include the SOW and evaluation criteria; Request fixed price, ceiling price, or, if not possible, labor hour or time and materials order; If preferred, request a performance plan from contractors and information on past experience; and include information on the basis for selection. May be posted on GSA's electronic RFQ system, e-Buy

For more information related to ordering services:

- Go to <http://www.gsa.gov/schedules-ordering> and click "Ordering Information".
- Also see summary guidelines in the [Multiple Award Schedule \(MAS\) Desk Reference Guide, Ordering Procedures](#).

BLANKET PURCHASE AGREEMENT

Ordering activities may establish BPAs under any schedule contract to fill repetitive needs for supplies or services. BPAs may be established with one or more schedule contractors. The number of BPAs to be established is within the discretion of the ordering activity establishing the BPAs and should be based on a strategy that is expected to maximize the effectiveness of the BPA(s). In determining how many BPAs to establish, consider:

- The scope and complexity of the requirement(s);
- The need to periodically compare multiple technical approaches or prices;
- The administrative costs of BPAs; and
- The technical qualifications of the schedule contractor(s).

Establishment of a single BPA, or multiple BPAs, shall be made using the same procedures outlined in 8.405-1 or 8.405-2. BPAs shall address the frequency of ordering, invoicing, discounts, requirements (*e.g.* estimated quantities, work to be performed), delivery locations, and time.

When establishing multiple BPAs, the ordering activity shall specify the procedures for placing orders under the BPAs.

Establishment of a multi-agency BPA against a Federal Supply Schedule contract is permitted if the multi-agency BPA identifies the participating agencies and their estimated requirements at the time the BPA is established.

Ordering from BPAs:

Single BPA. If the ordering activity establishes one BPA, authorized users may place the order directly under the established BPA when the need for the supply or service arises.

Multiple BPAs. If the ordering activity establishes multiple BPAs, before placing an order exceeding the micro-purchase threshold, the ordering activity shall:

- Forward the requirement, or statement of work and the evaluation criteria, to an appropriate number of BPA holders, as established in the BPA ordering procedures; and
- Evaluate the responses received, make a best value determination (see 8.404(d)), and place the order with the BPA holder that represents the best value.

BPAs for hourly rate services. If the BPA is for hourly rate services, the ordering activity shall develop a statement of work for requirements covered by the BPA. All orders under the BPA shall specify a price for the performance of the tasks identified in the statement of work.

Duration of BPAs. BPAs generally should not exceed five years in length, but may do so to meet program requirements. Contractors may be awarded BPAs that extend beyond the current term of their GSA Schedule contract, so long as there are option periods in their GSA Schedule contract that, if exercised, will cover the BPA's period of performance.

Review of BPAs:

The ordering activity that established the BPA shall review it at least once a year to determine whether:

- The schedule contract, upon which the BPA was established, is still in effect;
- The BPA still represents the best value (see 8.404(d)); and
- Estimated quantities/amounts have been exceeded and additional price reductions can be obtained.

The ordering activity shall document the results of its review.
